## THE COLLEGE OF THE HOLY CROSS,

WORCESTER, MASS.

Conducted by the Fathers of the Society of Jesus.

FOUNDED 1843.

**Historical Statement.**—The College of the Holy Cross was founded in the year 1843, by the Rt. Rev. Benedict Joseph Fenwick, second Bishop of Boston, and is the oldest Catholic College in New England. It had long been a cherished desire of Bishop Fenwick to establish in his diocese, which then included the city of Worcester, an institution for the higher education of Catholic young men. In bringing about the realization of this desire, he was aided by the Reverend James Fitton, who had, as early as 1838, established the Seminary of Mt. St. James on the hill which now bears that name, but was then known as Pakachoag, "Hill of Pleasant Springs." This institution, with its sixty acres of land, Father Fitton presented to the Bishop in 1842, and on this site the distinguished prelate determined to build his college. He gave it the name of his cathedral, with the motto and emblem of the Boston diocese—a cross in the heavens, as it appeared to the Emperor Constantine, with its historic legend.

The fact that the site was a gift was not the only consideration that influenced the Bishop in his selection. The healthfulness of the location and the natural beauty of the surrounding scenery were controlling motives. The spot, too, was considered at the time con-

secrated in local history. Near it the first humble wigwam church of Worcester had been erected by John Elliott for his Indians in 1674. The Fathers of the Society of Jesus, who had long been established in Maryland, were invited to organize the courses of study according to the curriculum of their college at Georgetown, in the District of Columbia, and to take entire charge of the teaching.

On the second day of November, 1843, classes were organized in what was then known as the "Seminary of Mount St. James," and were there continued until January 13th, 1844, when the first college building was completed. The corner-stone of the latter was laid by Bishop Fenwick on June 21st, 1843. Speaking of this event, the *Catholic Expositor* of August, 1843, describes the purpose of the new institution as "the advancement of the arts, the cultivation of the sciences and the promotion of patriotism, morality, virtue and religion." The same publication describes this first building as a brick structure 104 feet in length and four stories in height "with a fine portico on the centre of the front." The first annual exhibition was held July 29th, 1844. The saintly Bishop Fenwick died August 10th, 1846, and was buried, in compliance with his own wish, in the college cemetery. He had always taken a deep interest in the success of the college, and a few days before his death, the 6th of August, he had ceded to the Fathers full control and possession of the institution, with the buildings and grounds, free of incumbance.

On the afternoon of July 14th, 1852, eight days before the annual Commencement, a fire broke out, which destroyed the whole of the central building. This calamity not only suspended the class exercises, but threatened the very existence of the institution. The Rt. Rev. John B. Fitzpatrick, who was then Bishop of Boston, sympathized heartily with the Faculty, and determined that the college, which had been a monument to his predecessor's zeal for Christian education, should not perish. On the 3d of October, 1853, the college, enlarged and remodeled, was again ready to receive students. The effect, however, of such a calamity on the young college is shown by the interruption in graduating classes from 1852 to 1858.

**Incorporation.**—A class of the students, who had entered in 1843 and 1844, had advanced to "Philosophy," by which name the Senior year was then known, and were ready for graduation in 1849. The college, therefore, in that year applied to the Commonwealth of Massachusetts for the privilege of incorporation. The petition for a charter was presented in March, 1849, and was acted upon early in April. The petitioners were disappointed. The charter was not granted until the year 1865, when the sobering influence of the Civil War had caused all differences of opinion in regard to the college to be set aside.

If the students were disappointed in the hope of receiving their diplomas from their Alma Mater, they were not deprived of the benefits of graduation. Georgetown College, in the District of Columbia, conferred the degrees on all who were graduated from 1849 to 1852 and from 1858 to 1865. How the Faculty and students bore their disappointment at this time may be judged from the testimony of his Excellency, Governor Alexander H. Bullock, who said at the Commencement in 1868, alluding to the unsuccessful attempt to obtain a charter, that he had been deeply impressed by the manner in which the friends of the college hid all signs of disappointment and exhibited a patience which, under such circumstances, he would hardly have dared to expect from many Christian denominations.

It was during the Civil War, as intimated above, that the college, besides having become endeared to the Catholics of New England, had also attracted the favorable notice of many non-Catholics. The most distinguished among those who manifested an interest in the college at this period was His Excellency the War Governor, John A. Andrew. He visited and examined the institution during the school term of 1862, and presided at the annual Commencement of that year. On the latter occasion, he spoke of the college in the highest terms, and the sincerity of his praise was unmistakable. He had taken pains to acquaint himself with the methods of teaching employed at the college, and was qualified to bear testimony to their excellence. The impression made upon the Governor during these

two visits secured his interest in behalf of a charter, and he more than once urged the Faculty to apply for it.

The interesting event of incorporation was not long delayed. A petition was presented to the Legislature in the session 1865. A bill was framed to meet the exigencies of the case, read a third time in the House of Representatives on March 21st, and passed without opposition. The Senate confirmed the action of the lower body on March 23d, and on the following day the Governor affixed his signature.

The charter granted to "The Trustees of the College of the Holy Cross, in Worcester, Massachusetts," with other privileges, the power "to confer such degrees as are conferred by any college in this Commonwealth, except medical degrees." This placed the college on an equality, before the Commonwealth, with all other institutions of a similar character. It was no little gratification to the Faculty that their earnest devotion to the cause of religion and education was acknowledged by the State, and it was a source of pride to the students to be able to receive from their Alma Mater, in her own words and over her own seal, the testimony of her approval.

It is gratefully recorded here that the college was particularly indebted to Hon. Alexander H. Bullock for many acts of courtesy. As a resident of Worcester, he had always taken a neighborly interest in the college, while Speaker of the House he offered to present the petition for a charter, and while Governor of the State he presided at three successive Commencements. His example has been followed by most of the governors of the Commonwealth since his time, particularly by Governor Ames, who founded a scholarship at the college, and Governor Curtis Guild, Jr., who attended five successive Commencements, at all of which he delivered memorable addresses, manifesting a cordial interest in the institution.

**Location and Equipment.**—The college buildings, as stated above, are situated on one of the highest of the eminences surrounding the city of Worcester. Towards the north, this "Hill of Pleasant Springs" commands an extensive and most delightful view of Worcester, at the time of the founding of the college a town of

hardly 10,000 inhabitants, now a bustling city of more than 150,000, and, next to Boston, the largest city in Massachusetts. Over and beyond its many towers and spires and other elevations, looms aloft in the background, against the northern horizon, the summit of Mt. Wachusett, the second highest point in Massachusetts. The educational character of the environment is indicated by the prominent sites of Clark University, Worcester Polytechnic Institute, the State Normal School, Worcester Academy, Highland Military Academy and five local High Schools, two of these under Catholic control. The view thus afforded of the busy city, with the succession of hills and intervening valleys, makes the location of Holy Cross College most charming and interesting. To this delightful prospect, exceptional advantages of pure air and perfect drainage are added by the high elevation, while the graceful terraces to the north and west of the college buildings furnish recreation grounds that are unsurpassed in every respect. Impartial visitors do not hesitate to declare that for healthfulness of location and for educational environment Holy Cross is exceptionally favored.

The old buildings, whose accommodations satisfied the student of a quarter of a century ago, have been enlarged and improved in many ways, and extensive new constructions and improvements have been made in recent years.

An improvement which was at the time considered of vast importance was the raising and extending of the east wing of the main building in the spring of 1875. This wing, the only part of the building spared by the fire in 1852, gave place in time to a structure one hundred and twelve feet long, with an east frontage of ninety feet. On the first story is now the refectory of the Preparatory Department; on the second, the College refectory; while the chapel is on the third floor and occupies the space of two stories. Adjoining this wing, on the southeast corner, is the infirmary.

A later and more modern extension, now known as "the O'Kane Building," was completed in the spring of 1895, and formally opened in September of the same year. In the basement is the gymnasium, one of the largest in New England, 139 feet long, 50

feet wide, and 29 feet high. It is equipped with all the apparatus usually found in modern gymnasiums. A running track, one-seventeenth of a mile in length, elevated about ten feet from the floor, skirts the entire hall. Off the main gymnasium, shower baths and lockers are provided for the students. In the southwest corner of this building is Fenwick Hall, a large assembly room, with a seating capacity of over 500, well lighted by double-arched windows on the west and south sides, and so decorated and furnished as to make a most attractive auditorium. This hall is used for weekly elocution classes, dramatic exhibitions, public and private debates, and all general assemblies of the students. It is provided with a stage, equipped with all the latest theatrical appliances, and is lighted by electricity. The chemistry department, which occupies all the corresponding space on the floor below, is provided with all the necessary conveniences for work in general and analytical chemistry. The lecture-room and the two laboratories are specially designed and constructed for the purposes for which they are intended. The class-rooms, on the two floors above the gymnasium, are spacious and lightesome, and the corridors long, wide and cheerful. The two floors above the class-rooms are reserved for the private rooms of resident students. These rooms are pleasantly situated, with east and west exposure, and are lighted by electricity.

The latest addition to the college buildings is "Alumni Hall," which was opened in September, 1905. It contains nearly one hundred living rooms for students, with hot and cold baths. The lower floors also provide large lecture-rooms for philosophy, physics, English and history, besides a new instrument room, reference library, museum, and laboratories for physics and physiological psychology. The department of Physics occupies two floors in the northeast corner. The Physics lecture-room, capable of seating over 90 students on elevated tiers of lecture chairs, is particularly well lighted and is equipped for projection work with the lantern. The lecture table is provided with the latest and most approved conveniences, the alternating current being available at all times for lighting and experimental purposes, while direct current is furnished by a  $\frac{1}{2}$  k. w.

Edison generator driven by an induction motor. The large apparatus-room, adjoining the lecture-room, contains the requisite instruments for experiment and demonstration in the various branches of Physics. The laboratory, in the room below the lecture-room, is provided with facilities for quantitative work in mechanics, heat, light, sound and electricity. The building is entirely fireproof, is lighted by electricity and provided with the most modern heating and ventilating equipment.

Recent changes of dormitory arrangements have added, in what is known as "The Annex," thirty-two private rooms for students. At present, therefore, there are, in Alumni Hall, 92 students' rooms, in the O'Kane Building, 50 rooms, and in the Annex, 37 rooms, making in all 179 private rooms for resident students.

**Educational System.\***—The system of education is the one in use in all the colleges of the Society of Jesus, and is guided by the principles laid down in the famous *Ratio Studiorum*. This body of rules and suggestions has been elaborated by centuries of experience and has been judged worthy of attentive study and hearty approbation by the ablest scholars. One of its greatest advantages is that it secures, what is an essential requisite for success in educational work, natural, thorough and effective methods of teaching, employed uniformly by all the teachers.

It is not a system of ever-changing theory and doubtful experiment, but one on which have been built the characters of the world's best scholars and statesmen for centuries. It meets the demand for modern improvements by wise adaptation and readjustment. Instead of abolishing prescribed studies and increasing elective courses, it advocates a wise, deliberate and prudent election *by men whose profession is education*, not an unwise, sudden and rash choice *by inexperienced youths just entering on the process of education*.

The natural sciences and modern languages are by no means overlooked or neglected in this system, but the ancient languages and

their literature are still retained as prescribed studies, and, with mathematics and philosophy, form the "essential trinity of courses," which Prof. Ladd of Yale rightly considers "absolutely necessary for a truly liberal education."

The importance of the classics even for those who intend to specialize in mathematics or the natural sciences, was emphasized recently by a man who stands at the head of the engineering profession, Dr. Charles F. Steinmetz, in these words: "It is my opinion that the neglect of the classics is one of the most serious mistakes of modern education and that the study of the classics is very important and valuable, and *more so in the education of the engineer* than in most other professions, for the reason that the avocation of an engineer is specially liable to make a man one-sided . . . It is true that the classics are not necessary if the aim is to fit a student to *ply the trade* of engineer, as that of plumber or boiler maker. But such learning of the engineering trade can hardly be called *receiving an education* and certainly does not fit the man to intelligently perform his duties as citizen of the republic during the stormy times of industrial reorganization which are before us."

After the completion of such a course as is here given, the graduate is not sent to the theological seminary without any knowledge of the language in which the New Testament was written or of the methods of philosophical reflection and their bearing upon the problems of life and destiny. He is not sent to the medical school without some knowledge of physics and chemistry and some idea of the moral responsibility of the physician and surgeon. He is not sent to the law school without an intelligent grasp of the ethical nature and development of man and of the logical processes which make for and characterize sound judgment. He is not sent to the profession of teaching without some training for success in grasping truth and imparting it to others, some more intimate knowledge of the responsibility of a teacher than he can get from a few vague talks about pedagogy, some more extensive knowledge of psychology than may be acquired by a brief course in "child study." On the contrary, he is sent out from his college so uniformly equipped and harmoni-

ously developed in character that he is prepared to take up and prosecute any career, or even get more pleasure out of a life of leisure than a man who has missed such a preparation. Even as an equipment for a business career, such a preparation, as Ex-President Low of Columbia testifies, "would make him a power in the business world beyond all his compeers who had not been so favored."

Finally, this system does *not* meet the demand of the multitude who are simply anxious to "get through college as soon as possible," but it does make profound thinkers, safe guides, clear writers, logical pleaders and cultured gentlemen.

**Curriculum of Studies.**—The studies are not elective, but prescribed, with a few exceptions in the Senior and Junior years. Besides the Latin and Greek classics, the curriculum embraces English, in its various branches and aspects, and correlated studies, such as Rhetoric, Literature, Oratory, etc., Mathematics, Chemistry, Geology, Astronomy, Mechanics, a well graded course in History, one Modern Language besides English, and a thorough training in Physics and Rational Philosophy. A course in Pedagogy is provided in Senior year for students who contemplate entering the teaching profession, a course in Jurisprudence for those who propose to study law, courses in Biology and Organic Chemistry for those who intend to study medicine. The courses in detail are described further on.

**Moral Training.**—In this system of education, one of the most important features is the formation and training of character. Hence a closer supervision is exercised over the students than is usual, at the present day, in most of the large colleges; but an effort is made to exclude from this supervision every harsh feature. The professors live with the students, mingle with them constantly, interest themselves in their sports, direct their studies and in every way assume the relation rather of friends than of taskmasters. This constant, familiar, personal communication, on kindly terms, between professor and student, is a powerful factor in the formation of character. The age of the student is also considered, and in the later years of

his college course a larger degree of liberty is granted him. With regard to younger students, the supervision is as close as any parent or guardian could reasonably expect. With regard to all, the enforcement of discipline, while mild and considerate, is unflinchingly firm, especially when there is question of the good of the student body or of the reputation of the college.

As the greatest help in maintaining good discipline is found in the appeal to conscience and religion, special attention is paid to religious instruction. Christian doctrine is one of the prescribed studies in every class, supplemented by weekly lectures and conferences. The students are required to comply with their religious obligations regularly, and to make annually a spiritual retreat of three days. Sodalities and other associations are also provided for the fostering of piety.

The wisdom of this provision for the student's spiritual training was strongly emphasized by Ex-President Roosevelt, in his address at the College Commencement, June 21, 1905. He said: "It is eminently characteristic of our nation that we should have an institution of learning like Holy Cross, in which the effort is consistently made to train not merely the body and mind *but the soul of man, that he shall be made a good American and a good citizen of our great country.*"

The consequence of the neglect or exclusion of such religious training of the heart, the conscience and the will, in preparation for the duties and struggles of life, was emphasized nearly a century ago by Daniel Webster. In his famous speech in the Girard case, he said: "It is a mockery and an insult to common sense to maintain that a school for the instruction of youth from which Christian instruction by Christian teachers is sedulously and religiously shut out is not deistic and infidel in its tendency."

**Physical Training.**—While attending to the mental development of the student and safeguarding his moral character, the college authorities have not overlooked the importance of physical training. Besides the gymnasium, already described, the student is provided

with football and baseball fields, running track and tennis courts. Not only are physical instructors and experienced coaches and trainers provided, but all this is under the moderation and direction of a member of the Faculty, who will see that the students do not become so engrossed in athletics that their studies may be neglected or their health suffer in any way.

With regard to all forms of college athletics the policy of the college authorities has always been that the student's first duty in college is attention to study, and that no other student activity should be allowed to interfere with this main purpose of college life.

**Sessions and Holidays.**—The year is divided into two terms: the first from September to February, the second from February to the latter part of June. Recesses are granted at Christmas and Easter; the former begins at noon on the 23d of December and ends on the evening of the third of January; the latter begins at noon on Wednesday in Holy Week and ends on the evening of the Thursday after Easter. The limits of these recesses can not be extended without serious detriment to a student's class standing. Parents and guardians are therefore requested not to sanction or ask for such extension. They are reminded, also, that exceptions made in favor of individuals are unfair to other students and injurious to discipline.

The ordinary holidays are as follows: Festivals of obligation, state and national holidays, one day after the mid-year examinations and after the annual retreat and Pentecost Monday. Letters asking leave of absence, for students residing at the college, must be signed by parents or guardians, and must be addressed to the Prefect of Discipline. Such permission will rarely be granted by telegraph or telephone.

**Examinations.**—There are two examinations in the year: the "Mid-year," at the end of the first term, and the "Final," immediately before the close of the academic year, in June.

**Promotions.**—Usually promotions are made only at the end of the year. If, however, at any time during the year, particularly after

the mid-year examinations, a student may be found qualified, he will be promoted; and such promotion will be considered equivalent to the honors of the class which he leaves.

**Reports.**—Reports of scholarship and deportment are sent to parents or guardians in December, April and June. Two of these reports give information, also, of the positions held by the students in the two examinations. Should such reports not be received, parents or guardians are requested to notify the Prefect of Studies.

**Awards.**—The honors and prizes awarded at the close of the year are determined by the recitations of the entire year and the mid-year examinations. The average for recitations and examinations must be at least 90 per cent. to win a medal or premium; but honorable mention is made of those who attain 85 per cent. or more. As no allowance will be made for absentees, parents or guardians who permit their sons or wards to remain at home beyond the period allotted for vacation or recess, cannot expect to see them hold distinguished places in their classes. The standing of the students in their respective classes is publicly announced every month, in the presence of the Faculty and students, and testimonials are awarded to those whose standing is 95 per cent. or higher.

**Degrees.**—The successful completion of the College course entitles the student to the degree of Bachelor of Arts. Students who omit any prescribed study are not considered candidates for a degree.

**Special Students.**—Provision is made for special students who may lack some of the requirements for unconditional entrance to any regular class. For such students, the deficiency in Greek or Latin, or both, may be remedied some time before graduation according to the previous preparation of the student and his coöperation with his instructors. To be entered as a special student in the college department a student must have the majority of his recitation hours in a regular college class and must have successfully completed a High

School course. In some exceptional cases, special students are allowed to discontinue or omit a prescribed study, but with the express understanding that they thus cease to be candidates for the degree of Bachelor of Arts. Such students are classified as "out of course."

**Recitation Hours.**—The morning recitation hours are from 8.40 to 11.45, the afternoon hours from 2.15 to 4.15. Punctual attendance of non-resident students is insisted on, and such students will not be admitted to classes or lectures, when tardy or after absence, without a note from the Prefect of Studies. Twenty hours a week are given to recitations in the Senior year, twenty-two in Junior, and twenty-five in the other years. For the apportionment of these hours, see the Weekly Time Schedule.

**Societies.**—Besides the various religious organizations, namely, the League of the Sacred Heart, the Sodality of the Immaculate Conception, the Sodality of the Holy Angels, the St. John Berchmans Sodality and the Day Scholars' Sodality, there are many flourishing societies among the students. Among these may be mentioned the two debating societies—the B. J. F. for Seniors and Juniors, and the Philomathic for Sophomore and Freshman classes—the Scientific Circle, the Dramatic Society, the Fitton Academic Circle, the Library Association, the Reading Room Association, the Philharmonic Society, the College Orchestra, the Glee Club, the Editors of *The Holy Cross Purple* (the college magazine), the Athletic Association and the Tennis Association.

**Alumni.**—The graduates of the college from 1849 to 1910, inclusive, number 1223, of which number 1003 are still living, most of them holding distinguished positions in the various professions or in mercantile life. They are brought together socially and kept in touch with the college, not only through the circulation of the college magazine, *The Holy Cross Purple*, and by the general Alumni Association, but also by local branch organizations, such as the Connecticut Association, the Worcester County Association, the Bristol

County Association, the Rhode Island Association, the Berkshire County Association, the Northeastern Pennsylvania Association, and the Holy Cross Clubs of Worcester, Boston, New York and Philadelphia.

The first general association of the alumni was organized July 1, 1869, under the following officers: President, Rev. John J. Power, '51; Vice-President, Rev. James A. Healy, '49; Recording Secretary, Dr. James A. McDonough, '63; Corresponding Secretary, Rev. John B. Purcell, '64; Treasurer, James L. Walsh, '66; Executive Committee, Rev. Michael F. Flatley, '65, Rev. William J. Denvir, '58, and Rev. Michael S. J. Burke, '68.

**Scholarships.**—While other institutions number their scholarships by hundreds, and the value of them may be estimated at millions of dollars, Holy Cross is able to offer very few. These she names with grateful benedictions on the heads of those who have bestowed them. They are: (1) The Governor Ames scholarship, founded by Ex-Governor Oliver Ames in 1887, open to residents of Worcester, on examination, for tuition during the college course, (2) The John Reid scholarship, founded in 1894, for tuition during the college course, limited to residents of Worcester, (3) The Monsignor Griffin scholarship, founded in 1895, limited to residents of St. John's Parish, Worcester, Mass., for tuition during the college course, (4) The Rev. Robert Walsh scholarship, founded in 1895, limited to residents of the Immaculate Conception Parish, Worcester, Mass., for tuition during the college course, (5) the O'Driscoll scholarship, founded in 1874, entitling the holder to board and tuition during the college course, limited to residents of the city of Worcester who are candidates for the priesthood and selected by the Bishop of Springfield or his delegate, (6) The Rev. D. H. O'Neill scholarship, limited to residents of St. Peter's Parish, Worcester, Mass., for tuition during the college course, (7) The Rev. Charles E. Burke scholarship (interest on \$3000), limited to graduates of St. Joseph's High School, North Adams, Mass., (8) The John J. Power scholarship, founded by the late

Reverend John J. Power, D. D., limited to residents of St. Paul's Parish, Worcester, Mass., for tuition during the college course, (9) The two David F. McGrath scholarships, founded by Rev. David F. McGrath, '70, for board and tuition during the college course, limited at present to graduates of St. Mary's High School, Milford, Mass., (10) The "*Quid Retribuam*" scholarship, founded by a Friend of Education in gratitude for divine favors, providing board, tuition and private room for a deserving student during the entire college course, (11) The Richard Healy scholarship, founded by Mr. Richard Healy of Worcester, providing board, tuition and private room for a deserving student during the entire college course, limited to residents of Worcester County, (12) The Reverend D. H. O'Neill, Worcester, scholarship, providing tuition during the college course for a deserving student residing in the city of Worcester, (13) The John H. Halloran scholarship, founded by Mr. John H. Halloran of New York, as a memorial of his brother, the late William J. Halloran of Worcester, providing board, private room and tuition for a deserving student during the entire college course.

It is hoped that, in time, other generous friends of the college may be inspired to found at least partial scholarships and thus enable the Faculty, in answer to numerous appeals from deserving students, to make reductions for board and tuition. Thus the interests of education and charity could be made to go hand in hand and the future success of many a promising young man's career would be assured. Eight thousand dollars will found a scholarship providing tuition, board and lodging with furnished room and attendance. Fifteen hundred dollars will found a scholarship giving free tuition.

Another method of assisting both Faculty and students is the foundation of medals and other prizes. The gift of \$500 or \$600 will found a medal in perpetuity and the founder's name will be perpetuated in the annual catalogues.

It is hardly possible to conceive a more effectual way of perpetuating the memory of a benefactor than this foundation of college prizes and scholarships. The name of the benefactor will be annually recalled as long as the college survives, and unborn generations of beneficiaries will bless the memory of the benefactors.

**Exhibits.**—Both the college and the preparatory department were represented by exhibits at the Pan American Exposition in Buffalo, the Charleston Exposition, the World's Fair in St. Louis and the Lewis and Clark Exposition in Portland, Oregon. To these exhibits were awarded diplomas of Honorable Mention, in Buffalo and Portland, and Silver Medals in Charleston and St. Louis.

**Terms.**—The following is as complete a general statement as can be given of the expenses of a student's year in either the college or the preparatory department, with the terms for payments and some information about equipment and incidental expenses:

#### RESIDENT STUDENTS.

Tuition, per annum, . . . . .	\$ 60 00
Board and lodging, including washing and mending linen, per annum. . . . .	200 00
Furnished room and attendance, per annum:—	
Single rooms, O'Kane Building and Annex, . . . . .	80 00

*All charges must be paid half-yearly in advance. If payment is deferred without a satisfactory understanding with the President, the latter is direct-*

*ed by the Trustees to remove the students in question from the institution. No student will be admitted to the final examination for graduation if any bills remain unpaid.*

By "lodging" is understood bed and bedding with necessary furniture and attendance, heat and light. Private rooms are furnished with bed and bedding, study-desk, two chairs, wardrobe, washstand, heat, light and attendance.

No expenditure for clothing or for incidental expenses of any student, nor advances for pocket money, will be made by the institution, unless an equivalent sum be deposited with the Treasurer of the college. The books and stationery necessary for the different classes may be purchased at the college, but will not be supplied on credit unless special instructions to that effect be given to the College Treasurer. Books and other incidentals are not included in any scholarship.

There is no charge for the services of the college physician, but medicines procured at the college infirmary will be charged as used by individuals.

Students who may desire music lessons can make arrangements for rates with music teachers at hours approved by the Prefect of Studies.

Each resident student must be supplied with sufficient wearing apparel for daily and holiday use, pocket handkerchiefs, towels, etc. All articles of clothing should be marked with the name of the student.

The college Treasurer will not advance money to students for travel or other purposes unless on written request of parents or guardians.

*The college will not be responsible for books or articles of clothing left behind by any student when leaving the college, much less for the loss of books, clothing or other articles while in the keeping of the students.*

Course II. (Junior year). Optional. Two hours a week. Comparative study of Italian and English or of French and English literature.

**Course III.**—(Sophomore year). Three hours a week, besides a written theme, oratorical, poetical, critical or historical, once a week, outside of recitation hours.

**A. Theory of Rhetoric.** Kleutgen, S. J., *Ars Dicendi, Pars IV. De Eloquentia* (first term), pp. 255-317; (second term), pp. 317 to the end. Coppens, S. J., *Oratorical composition* (first term), pp. 1-194; (second term), pp. 194 to the end.

For Reference: Cope and Sandys, *Aristotle's Rhetoric*; Wilkins, *De Oratore*; Whately; Genung; Du Cygne; Blair; Baker, *Specimens of Argumentation*.

**B. Rhetorical Analysis and Composition.** Analysis of three speeches: (first term) Demosthenes, first Philippic, or Aeschines on the Crown; Cicero, *pro Lege Manilia*; Burke, *American Taxation*, or *Bristol Election*; (second term) Demosthenes, *de Corona*; Cicero, *pro Milone*; Burke, on *Conciliation* or one of Webster's speeches. Selections from Bradley's *Orations and Arguments*.

**C. History and Criticism:** (first term) *The Elizabethan Age*—Brooke, *English Literature*, pp. 71-108; (second term) *American Literature and Early English Literature*.

For Reference: Saintsbury, *Age of Elizabeth*; Ward, *English Poets*, Vol. II.; Jebb, *Athenian Orators*; Campbell, *Guide to Greek Tragedy*; Stedman's *American Poets*.

**D. Reading and Discussion:** (first term) Shakespeare, *Hamlet* (with analysis), *King Lear* (reading). Palgrave's *Golden Treasury*, Bk. I., Burke's *Bristol Election* or Webster's *Bunker Hill speech*; Newman's *Second Spring*; (second term) Shakespeare, *Macbeth* (with analysis), *Julius Cæsar* (reading). Selections from Bradley's *Oratorical Selections*.

**Course IV.**—(Freshman year). Three hours a week. One composition a week done out of class, alternately in prose and verse.

**A. Principles of Literature.** Choice of words,—elegance, vigor and variety of expression. Power of developing thought fully and

in an orderly way. Attention to prose rhythm and movement of sentences. The finer points of style, such as connotation, economy, suggestion. Laws governing narration, description and exposition. General laws of versification, with special reference to the sonnet, the ode and the Spenserian stanza. Distinctive features of poetic diction. The emotional and intellectual elements of poetry. Kleutgen, *Ars Dicendi* (first term), pp. 1-178; (second term) pp. 180-250. Coppens, *Introduction to Rhetoric*; (first term) Books III. and IV.; (second term) Books V. and VI.

For Reference: Butcher, *Aristotle's Theory of Poetry and Fine Arts*; Stedman, *Nature of Poetry*; Ward, *English Poets* (Introductory Essays); Watts, *Essay on Poetry* (*Encyclopedia Britannica*); Shairp, *Interpretation of Nature*; Jebb's *Athenian Orators* (Introduction); Newman, *Idea of a University* (on Style); Pater's *Essay on Style*.

B. Reading, Literary Analysis and Discussion: (first term) Milton's *Lycidas*, Shelley's *Adonais*, Wordsworth and Keats. Masters of English Prose—DeQuincy, Newman, Ruskin, Hawthorne, Bryce, Arnold; (second term) Shakespeare, Spencer, Milton's *Paradise Lost*, and Selections from Tennyson. For reference: Brewster's *Studies in Structure and Style* and Palgrave's *Golden Treasury*.

Text-books—Palgrave, *Golden Treasury* (First Series), Books 3, 4; *Golden Treasury* (Second Series).

C. History and Criticism: (first term) Lake School to Victorian Age, inclusive (1745-1900); (second term) from Elizabeth to Pope (1603-1730).—Brooke's *Primer of English Literature* cc. 5-10 (incl.).

For Reference: Ward's *English Poets*, Vols. III., IV.; Saintsbury, *19th Century Literature*; Stedman's *Victorian Poets*; Thomas Arnold's *English Literature*; Sutton's *History of Catholic Literature in England*; Jenkins' *English Literature*; Minto's *Georgian Era*; Gosse, *18th Century Literature*.

## HISTORY.

Course I.—(Junior year). Two hours a week. History of Social Revolution (first term); Constitutional History (second term).

Lectures based on Guggenberger, General History of the Christian Era, Vol. III. (first term); Hinsdale or Story (second term).

References on the Constitution: Bryce, American Commonwealth; Chan-ning, Students' History of the United States; Macdonald, Select Charters and Select Documents; Goldwin Smith, The United States; Macy, Political Parties in the U. S.; Ford, Rise and Growth of American Politics.

Course II.—(Sophomore year). Two hours a week. History of Religious Revolution. The Renaissance. Lectures based on Guggenberger, General History of the Christian Era, Vol. II.

Course III.—(Freshman year). Two hours a week. History of the Papacy and the Empire. The Migration of Nations. The Rise of the Empire. The Crusades. The Rise of the Papacy. Lectures based on Guggenberger, General History of the Christian Era, Vol. I.

#### MATHEMATICS.

Freshman year. Four hours a week.

FIRST TERM: Trigonometry—Functions of acute angles. The right triangle. Goniometry. The oblique triangle. Construction of logarithmic tables. Surveying. Triangulation. Leveling. Practical work in Surveying.—Text-book: Wentworth.

SECOND TERM: Analytic Geometry—Loci and equations. The straight line. The circle. Different systems of co-ordinates. The parabola. The ellipse. The hyperbola.—Text-book: Wentworth.

#### SCIENCE.

Course Ia.—Physiological Psychology. (Senior year). Optional. Two hours a week, one term.

1. Definitions, methods. End organs and their functions. Cell tissues, nerves, spinal cord, brain. Mechanical theory of nervous action, excitation, inhibition and conduction.

2. Correlation of sensation and motion. Automatic, reflex and voluntary movements. Cerebral localization. Speech, theories of the speech centre and psychological explanation of its problems.

CHAPEL

3. Stimulus. Genesis of sensation. Composition of the sense percept (idea). Basis in sensation of the time and space concept. Errors in special perception, in visual perception generally. Monocular and binocular vision.

4. Measurement of sensation intensity. Weber's, Fechner's, Merkel's laws. Time reaction for sensation, volition, thought. Influence of attention, fatigue, rhythm.

5. Feeling and Emotion. Apperception. Attention. Association.

References: Wundt, Human and Animal Psychology; Grunfdzüge, der Physiologischen Psychologie; James, Psychology; Ladd, Outlines of Physiological Psychology; Scripture, The New Psychology; Maher, Psychology; Titchener, Experimental Psychology; Sanford, Experimental Psychology.

Course Ib.—Astronomy. (Senior year). Three hours a week, one term.

Application of the general principles of Spherical Trigonometry, with experiments and observations.—Text-book: Young.

Course Ic.—Geology. (Senior year). Three hours a week, one term.—Text-book: Brigham.

For Reference: Geike, Class-book of Geology; Kelvin, Geology and General Physics; Russell, Volcanoes of N. America; Jukes-Browne, Geology; Russell, Glaciers of N. America and Lakes of N. America; R. S. Tarr, Elementary Geology. Leconte.

Course Id.—Experimental Physics. (Senior year). Optional. Two hours a week. Laboratory work.

This course is intended for those who wish to extend their knowledge of Physics and particularly of experimental methods, and is arranged with a view to meeting the requirements of medical and technical schools. The course is based on Ames and Bliss' Laboratory Manual and comprises quantitative work in mechanics, heat, sound, light and electricity. Particular stress is laid on accuracy in observation and in the proper reduction of experimental data.

**Course Ie.—Biology.** (Senior year). Optional. Two hours a week.

(a) Micrometry. Sectioning. Mounting. Media and Reagents.

(b) Structure of living beings. Morphology. Functions of living beings. Physiology. Organs, tissues, cells. Morphology of the cell. Protoplasm. "Vital force"—the soul. Cytogenesis. Differentiation of tissues. Nutrition. Reproduction. Alternation of generations. Spontaneous generation. (Facts, conclusions). The Origin of Species.

(c) Laboratory work on Plants and Animals.

References: Sedgwick and Wilson, General Biology; Whitman, Methods of Microscopic Anatomy.

**Course If.—Organic Chemistry.** (Senior year). Optional. Two hours a week.

This course is arranged chiefly to meet the requirements of those who intend to take up the study of medicine after they have finished their college course. In it the student may acquire that knowledge of elementary organic chemistry which is required by several medical schools at the present time. The course, which treats first of the analysis and purification of organic compounds, embraces the paraffins, together with their halogen derivatives, alcohols, ethers, aldehydes and ketones, acids, esters and the animes. Special attention is given to the study of the carbohydrates and proteids, the aromatic hydrocarbons and their halogen and nitro derivatives, and the phenols. The alkaloids, because of their great importance to students of medicine, will be dwelt on more at length. The laboratory practice consists in the preparation and qualitative analysis of organic compounds.

Text-book: Cohen's Theoretical Organic Chemistry. Laboratory manual: Cohen's Practical Organic Chemistry.

**Course IIa.—(Junior year).** Physics. Five hours a week. Lectures and recitations, including the solution of problems.—Text-book: Watson.

This course, which is a continuation of Course IIIa (Mechanics) of Sophomore year, comprises the mechanics of liquids and gases, molecular phenomena, wave motion, sound, heat, light and electricity. The lectures are fully illustrated, the aim being to present the subject as a connected science embodying the various transferences and transformations of energy.

Course IIb.—(Junior year). Qualitative Analytical Chemistry. Optional. Analysis of Inorganic Substances. Two hours a week.

I. Basic Analysis. Solutions, known and unknown. Salts, metals and alloys.

1. Silver group.
2. Copper and Tin groups.
3. Aluminum and Iron groups.
  - A. Separation of Nickel and Cobalt.
  - B. Effect of the presence of Chromium and of Alkaline-earth phosphates on the method of separation.
  - C. Separation in absence of Chromium and of phosphates.
  - D. Separation in presence of Chromium and of phosphates. ( $\text{BaCO}_3$  method).

4. Alkaline-earth and Alkali groups.

II. Acid Analysis. Solutions, known and unknown. Salts.

1. Sulphuric Acid group.  
 $\text{H}_2\text{SO}_4$ ,  $\text{H}_2\text{CrO}_4$ ,  $\text{H}_3\text{PO}_4$ ,  $\text{H}_3\text{BO}_3$ ,  $\text{H}_2\text{C}_2\text{O}_4$ ,  $\text{HF}$ ,  $\text{H}_2\text{CO}_3$ ,  $\text{H}_4\text{SiO}_4$ ,  
 $\text{H}_2\text{C}_4\text{H}_4\text{O}_6$ , ( $\text{H}_2\text{SO}_3$ ,  $\text{H}_2\text{S}_2\text{O}_3$ ,  $\text{H}_3\text{AsO}_4$ ,  $\text{H}_3\text{AsO}_3$ ).
2. Halogen group.  
 $\text{HCl}$ ,  $\text{HBr}$ ,  $\text{HI}$ ,  $\text{HCN}$ ,  $\text{H}_2\text{S}$ ,  $\text{H}_3\text{Fe}(\text{CN})_6$ ,  $\text{H}_4\text{Fe}(\text{CN})_6$ .
3. Nitric Acid group.  
 $\text{HNO}_3$ ,  $\text{HClO}_3$ ,  $\text{HC}_2$ ,  $\text{HC}_2\text{H}_3\text{O}_2$ .

III. Preliminary Examination.

1. Heat in a bulb tube.
2. Heat on charcoal in the blowpipe flame.
3. Fuse in the borax bead.
4. Treat with concentrated  $\text{H}_2\text{SO}_4$ .
5. Heat in the bunsen flame and note colorations of flame.

IV. Solution of Solid Substances. Special treatment of insoluble substances and of metals and alloys.

Course IIIa.—(Sophomore year). Mechanics. Two hours a week.—Text-book: Dana.

Course IIIb.—(Sophomore year). General Chemistry. Three hours a week. Lectures, recitations and laboratory work.—Text-book: Alexander Smith, College Chemistry.

Inorganic Chemistry—Introduction. Oxygen. Hydrogen. Water. Fundamental laws and theories. Allotropy and nascent state. Chlorine. Acids, bases and salts. The periodic law. The halogens. Nitrogen. Air. Non-metals and their compounds. Chemical action. Metals and their compounds.

Organic Chemistry—The hydrocarbons. Other compounds of carbon.

### EVIDENCES OF RELIGION.

**Course I.**—(Senior year). One hour a week, besides one hour for weekly conference. General review of Courses II., III., IV.—Wilmer, S. J., Handbook of the Christian Religion.

**Course II.**—(Junior year). One hour a week, besides one hour for weekly conference.—Wilmer, S. J., Handbook of the Christian Religion, pp. 1-200.

**FIRST TERM:** Christianity, a revealed religion. Revelation in general. Pre-Christian revelation. The Christian revelation. The Church—its institution, end, constitution.

**SECOND TERM:** Marks of the Church. Teaching office of the Church. Holy Scripture. Tradition. Rule of Faith. The existence of God. The nature of God. Attributes of God. Unity of God. The Most Holy Trinity.

**Course III.**—(Sophomore year). One hour a week, besides one hour for weekly conference.—Wilmer, S. J., Handbook of the Christian Religion, pp. 349 to the end.

**FIRST TERM:** The Sacraments of Penance, Extreme Unction, Holy Orders, Matrimony. The church as a means of salvation. The Last Things. Christian morality.

**SECOND TERM:** Christian duties towards God, ourselves, our neighbor. Christian perfection.

**Course IV.**—(Freshman year). One hour a week, besides one hour for weekly conference.—Wilmer, S. J., Handbook of the Christian Religion, pp. 200-349.

**FIRST TERM:** The Creation. Spiritual and material world, man. Different orders of creation in relation to one another. The Redemption.

**SECOND TERM:** Grace and the Sacraments. Baptism. Confirmation. Holy Eucharist. Penance.

#### MODERN LANGUAGES.

N. B.—But one year (Freshman) of prescribed work in this department is required for the A.B. degree. Students entering Freshman class are supposed to have a fair reading knowledge of French or German. Two or three years of preparatory study in French or German would be required in order to follow the regular course prescribed for Freshman year. Those who enter without this preparation will be obliged to take an elementary course in either French or German during their Freshman year.

Advanced courses (optional) in these languages will be arranged, parallel with the courses in English, when applications are sufficiently numerous to warrant the Faculty in making this provision.

#### French Course I.—(Sophomore year). Optional.

This course is offered only on condition that the number of applicants and their knowledge of French may warrant it.

(a) Study of the French orators: Bossuet, Bourdaloue, Massillon, Fléchier. Parallel with English III., A. and B.

(b) Study of the French dramatists: Corneille, Racine, Molière, De la Vigne. Bornier, La Fille de Roland. Rostrand, Cyrano de Bergerac. Parallel with English III., C. and D.

(c) Private reading, directed by Professor. Conference.

**French Course II.—(Freshman year).** Prescribed (for students not taking German). Two hours a week.

**FIRST TERM:** Literary criticism of Chateaubriand's *Atala* or *Le dernier des Abencerages* and Molière's *Le Bourgeois Gentilhomme* or *L'Avare*.

SECOND TERM: Literary criticism of Corneille's *Le Cid* or *Polyeucte*.

German Course I.—(Sophomore year). Optional. Offered on same conditions as French Course I.

(a) Study of the German Drama and of Epic poetry. Lessing, Schiller, Göthe, etc. *Nibelungen*. Klopstock's *Messias*. Parallel with English III., C. and D.

(b) Private reading, directed by Professor. Conference.

German Course II.—(Freshman year). Prescribed (for students not taking French). Two hours a week.

FIRST TERM: Literary criticism of Jansen's *Die Braune Erica* and Göthe's *Hermann und Dorothea*.

SECOND TERM: Literary criticism of Schiller's *William Tell*.

#### ORATORY AND ELOCUTION.

The work in this department is so arranged that each student may have the maximum of attention from the professor. There is a class for vocal drill and expression, with exercises in perfect carriage and gesture, interpretation and delivery. Students are required to speak before the class a certain number of times each term, and every year purses are awarded to the winners in a public contest. In the Senior and Junior years, this contest consists of the delivery of original orations.

## ENTRANCE REQUIREMENTS

---

Students may enter at any time during the year, and, on examination, will be assigned to the class for which their prior attainments have fitted them; but it will be found most to the interest of the student to enter in September.

Satisfactory testimonials of good conduct will be required from all new students; and from those who come during the school year from other institutions certificates of honorable dismissal will be required.

Candidates for admission to advanced classes must pass a satisfactory examination on all the subjects previously studied by the class which they desire to join.

From certain preparatory schools of established reputation, students are admitted to the Freshman class without examination, upon the principal's assurance that they have completed the required amount of work *along the lines herein prescribed*, and are prepared to enter college. In such cases, however, a detailed statement of the studies successfully completed must accompany the principal's certificate. Such certificate must indicate an advance of four years beyond grammar school studies, and the studies must be *classical*—four years' Latin and, at least, three years' Greek. Our entrance blanks will be sent to candidates on application.

In all other cases, for admission to Freshman class, a successful examination is required in the following subjects. Equivalents in certain subjects will be accepted.

**LATIN**—(1) Grammar.—The entire Latin Grammar, including a knowledge of all regular syntactical constructions; translation into Latin, at sight, of complex English sentences, entailing the application of rules for relative clauses, indirect discourse and conditional sentences, etc. Prosody. All the rules for quantity, in-

cluding increments of nouns and verbs. Application to hexameter and pentameter verse. Scansion of Ovid and Virgil.

(2) Composition.—Translation into Latin of easy continuous prose based on Cæsar and Cicero. This requirement is of very special importance, and great weight will be given to it in the examination. The use of Cicero's Letters, as well as his Orations, as models for the acquirement of Latin idiom, is strongly recommended to those preparing to take this examination.

(3) Authors.—Nepos: Lives of Themistocles, Miltiades, Hannibal. Cæsar; *De Bello Gallico*, two books. Ovid: *Metamorphoses* and *Tristia*, 1000 lines. Cicero: Selected Letters, *De Senectute* or *De Amicitia*, two of the Orations against Catiline. Virgil: *Bucolics*, I. and IV.; *Georgics*, Book IV.; *Æneid*, two books. For some of these may be substituted Phædrus, Catullus Sallust.

GREEK.\*—(1) Grammar—Etymology complete (including the irregular and defective forms); entire syntax and its application; the Homeric dialect.

(2) Composition.—Translation into Greek of simple English sentences based on Xenophon's *Anabasis*.

(3) Authors.—Xenophon's *Anabasis*, Books I., II., III. and IV. Homer, *Iliad*, Books I., II. and VI. For the *Anabasis* may be substituted Xenophon's *Cyropædia*, *Memorabilia* or *Hellenica*.

N. B.—In assigning the matter above, the purpose of the Faculty is, on the one hand, not to insist on quantity, and, on the other hand, not to accept the mere reading of a stated amount of assigned authors as sufficient preparation for college. In the discussion of the classic authors, both Greek and Latin, the candidate must be prepared to give a complete grammatical analysis of every word, phrase and sentence, and to point out exceptional idioms, and must be informed on the chief points of collateral erudition connected with the text.

\*Should a candidate, otherwise qualified, be unable to meet the requirements in Greek, he may take elementary Greek in his Freshman year and finish the Greek course before graduation.

ENGLISH.—Higher Grammar.—The candidate must be prepared on the matter contained in Davidson and Alcock's English Grammar and Analysis, Nichol's Composition, Scott-Denny's Composition-Rhetoric, Coppens' Introduction to Rhetoric, or some equivalent works.

Composition—A brief prose composition will be required, evidencing proficiency in narrative and critical writing. This exercise will be based on books and authors assigned for reading and study. Questions will be asked as to the subject-matter, method of treatment, structure and style of these books. Fair penmanship and accurate spelling will be considered as essential preliminary requirements.

The authors assigned for 1911-1912 are: Coleridge, *The Ancient Mariner*; Tennyson, *Holy Grail and Morte d'Arthur*; Addison's *Sir Roger de Coverley*; \*Macaulay, *Essays on Milton and Addison*; \*Milton, *Minor Poems*; \*Shakespeare, *Macbeth or Merchant of Venice*; \*Burke, *on Conciliation*; Lowell, *The Vision of Sir Launfal*; Newman's *Callista*.

A careful study of the works marked thus\* (subject-matter, form and structure) will be exacted; a general acquaintance with the other assigned books will be sufficient.

N. B.—*The Uniform College Entrance Requirements in English for 1911 will be accepted, as will any fair equivalent work in this department.*

HISTORY.—The History of the Oriental Nations, of Greece, Rome and England; Montgomery's History of the United States, or some equivalent; Elements of Civics.

MATHEMATICS.—Elementary and Higher Algebra; Geometry, plane and solid.—Wentworth's Complete Algebra and Wentworth's Geometry, or works of equal grade.

MODERN LANGUAGES.—The elements of grammar, including the irregular verbs; translation into English, at sight, of simple prose; grammatical analysis. One modern language, other than English, is required, preferably French or German. In case a candidate should not be prepared to meet this requirement, he will be obliged to follow an elementary course in either French or German during his Freshman year.

## PREPARATORY DEPARTMENT.

---

Since September, 1908, no new students were received for the first-year class in the Preparatory Department, a four-years' Classical High School, but the other classes were continued as before. Provision is made for students who have already begun the course, and they will be able to finish, but no assurance can be given, at the present time, of a continuation of this department. The class-room and dormitory accommodations will be needed for the College classes if attendance should continue as at present or should grow larger.

*Special* preparatory classes, however, will still be provided, for students whose High School preparation has not been along classical lines and who need special preparation in Latin, Greek, Mathematics or Modern Languages. Information about such special classes may be obtained by communicating with the Prefect of Studies.

### THE DRAMATIC SOCIETY.

---

The first dramatic societies established at the college were the "Pokachoag Dramatic Club" founded in 1849, and the "Smithsonian Ethiopian Minstrel Club," established the same year. The Dramatic Club was reorganized under the former name in 1864. The society was established on its present basis in 1889. Its chief aim is to promote elocution by training the students in dramatic art. Classic dramas are presented each year with marked success.

STUDENTS' LIBRARY BOARD.

The Students' Library, which at present contains about 4800 volumes, was opened for general use in the fall of 1895. Previously, reading matter was supplied from the libraries of the various literary and debating societies. These special libraries were generously donated to the general library. An annual fee of \$2.00 is imposed upon all the students. From the revenue thus accruing, many new volumes, containing the best works in prose and verse, were added this year. No book may be kept out beyond two weeks.

**Extract from Speech of Ex-President Roosevelt at the  
Commencement Exercises, June 21, 1905.**

---

"It is eminently characteristic of our nation that we should have an institution of learning like Holy Cross, in which the effort is consistently made to train not merely the body and mind but the soul of man, that he shall be made a good American and a good citizen of our great country."

---

**Extract from Speech of Cardinal Gibbons at the Com-  
mencement Exercises, June 18, 1907.**

---

"Christian schools, like Holy Cross College, are indispensable for the moral and mental development of the rising generation."

BIRD'S-EYE VIEW OF BUILDINGS AND UPPER TERRACES.

This comprehensive picture embraces all the college terraces from the river wall to the top of Pakachong, and the whole stretch of Fittou Field from the entrance of the grand stand to the eastern end of the foot-ball field, including College Street, with the two car lines meeting at the entrance to the grounds, the base-ball field, Fittou Avenue—the elevated resort of carriages and automobiles—and the historic "Claret Ring" pines."
